

## **COLWALL CARE SCHEME**

The Care Scheme aims to help people in the village who have a temporary need for help. We have a list of volunteers with various abilities, and the services we provide include: emergency meals, local car journeys, shopping, reading, "relief sits" so that regular carers can go out, dog walking..... the list goes on.

We do stress, that we do not provide long-term care, as we are only a group of volunteers who have jobs and /or family commitments as well. We also cannot do anything where lifting may be involved or anything involving intimate care. However we may be able to signpost you in the right direction if this is what you need.

We are in contact with the Surgery who pass our phone numbers on to anyone who they feel may benefit from the Scheme, and if you, a neighbour or a friend in the village need this service, please do ring June Weber 01684 540196 and we will do our best to help.
